

ON-PORTAL
FOR HOTELS

COMPANY PROFILE

About Us

Since our establishment in 2024, On Portal has established a solid reputation as a reliable provider of integrated hotel supply solutions. Guided by a vision to elevate operational standards and guest satisfaction within the hospitality industry, we have continuously diversified our product portfolio and extended our market reach to meet the evolving demands of our clients.

We proudly serve as official distributors for Egypto-Soft, offering their industry-leading hospitality management software solutions.

Our Goals

To position ourselves as the preferred supplier for the hospitality sector by offering a diverse range of high-performance products, complemented by exceptional customer service, tailored solutions, and a commitment to operational excellence.

Our Products

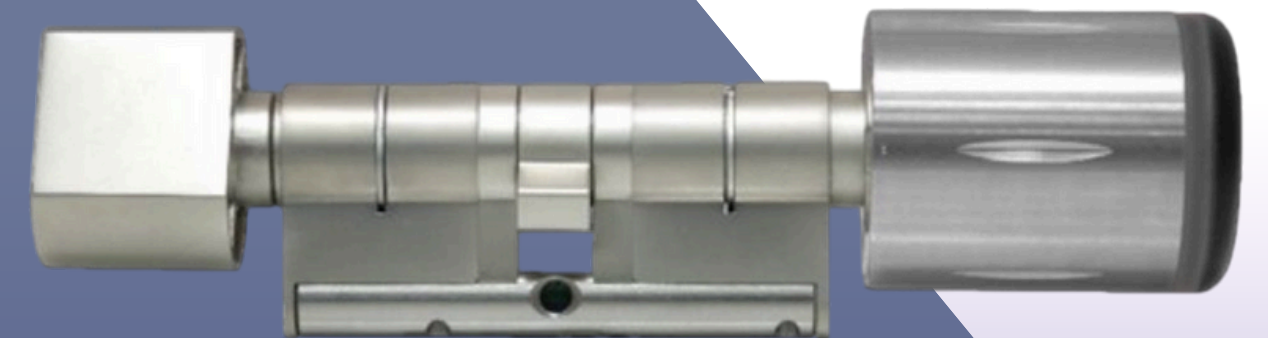

ELECTRONIC LOCKING SYSTEM

Modern, keyless storage solutions offering enhanced security and convenience for guests through digital access systems.

e-Cylinder

Battery-powered RFID lock for outdoor and glass doors, providing secure access without wiring or door modifications. Durable, weatherproof, and easy to install.

POWER SAVER SYSTEM

Advanced energy management systems designed to optimize energy consumption in hotel guest rooms by automatically disabling electrical circuits when the room is vacant, resulting in significant energy and cost savings.

DO NOT DISTURB DOOR SIGN

Door Signs are subtle yet essential component of the guest experience. They facilitate clear navigation, provide guests with control over privacy and service preferences, and serve as a discreet reflection of the hotel's brand identity and commitment to hospitality.

KEY CARDS

RFID CARDS

Contactless smart cards, secure, efficient, and reliable access control throughout hotel premises.

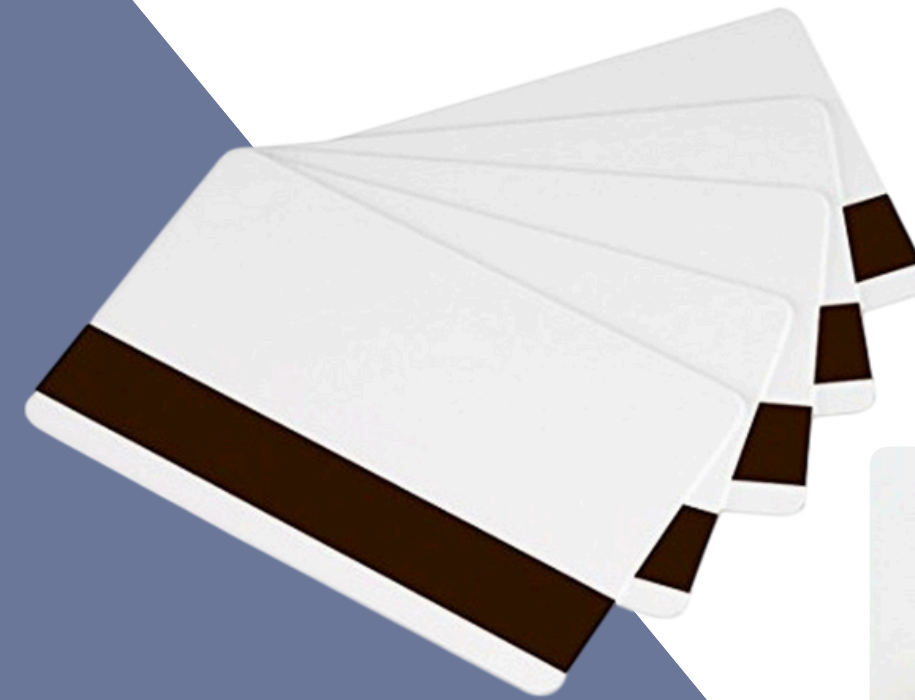

Magnetic Access Cards

Traditional swipe cards embedded with magnetic stripes for secure data storage and controlled access to hotel facilities.

Hybrid Hotel Key Cards

include both an RFID chip and a magnetic stripe, allowing them to be used in different types of lock systems.

RFID WRISTBANDS

Contactless, wearable technology embedded with radio frequency identification, enabling seamless interaction with hotel access and payment systems.

SAFES

Enhance your guest experience with in-room safes that offer reliable storage for valuables, electronics, and important personal belongings. Engineered for dependable security in a compact and stylish design, our safes are available in multiple sizes to meet a variety of guest needs.

MINIBARS

In-room minibars offer guests convenient and immediate access to a curated selection of beverages, snacks, and refreshments. Thoughtfully designed to complement the comfort of the room, they enhance the overall guest experience by providing discreet, private access to refreshments without the need to leave the room.

DIGITAL SMART LOCKER

Modern electronic locking systems delivering advanced security, operational efficiency, and convenient keyless access where required.
